WHAT IS ACORN?

Acorn is the leading geodemographic segmentation of residential neighbourhoods in the UK. It classifies each postcode in the country into one of 7 categories, 22 groups and 65 types that give a distinctive picture of the kinds of people who live in an area.

Acorn is a powerful targeting tool that combines geography with demographics and lifestyle information, and the places where people live with their underlying characteristics and behaviour, to create a tool for understanding the different types of people in different areas throughout the country. It provides a detailed understanding of the people who interact with your organisation and helps you learn about their relationship with you. This knowledge gives you the opportunity to target, acquire and develop profitable customer relationships and improve service delivery.

ACORN STRUCTURE

ADDITIONAL INFORMATION

For more information, click here to visit the website:

INTERPRETING THE REPORT

The Acorn Detailed Report helps you understand the underlying demographics and lifestyle attributes of your catchment by comparing them to the GB/UK average.

AREA PROFILE

Total figures exclude business addresses without residential population

INDEX

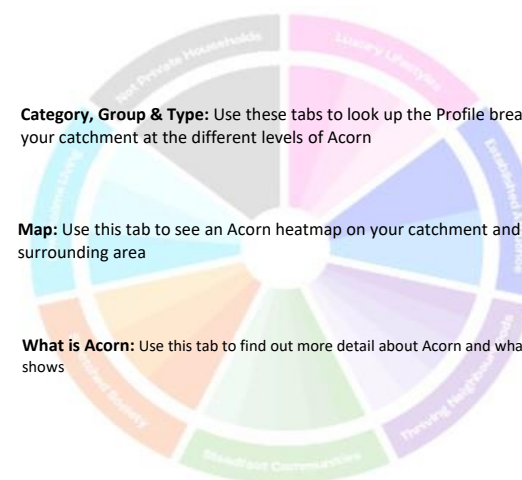

PERCENTAGE

% for Area: Calculates the percentages of each category, group or type for the catchment

% for Base: Calculates the percentages of each category, group or type for the base catchment

12. Miscellaneous goods and services	£3,066,147	£164.75	£135.92	121			
Total Expenditure	£18,591,774	£998.97	£852.33	117			

Expenditure calculated for RF Centres includes weighted residential, worker and tourist spend; for RF catchments it includes weighted residential spend only. For all other catchments it includes residential, online and domestic tourist spend (all spend originating from these areas).

The figures are calculated from data from the Living Costs and Family (LCF) survey conducted by the Office for National Statistics. The analyses in this report are carried out by CACI and those who carried out the original collection and analysis of the data bear no responsibility for their further analysis or interpretation. The spend figures are based on current prices for the year stated at the top of the report. The Classification of Individual Consumption by Purpose (COICOP) is published by the UN Statistics Division to provide an international standard for the reporting of expenditure. Totals are controlled to national figures supplied by ONS Consumer Trends.
