CATEGORY GROUP TYPE MAP WHAT IS ACORN?

ACORN - WHAT IS IT?

WHAT IS ACORN?

Acorn is the leading geodemographic segmentation of residential neighbourhoods in the UK. It classifies each postcode in the country into one of 7 categories, 22 groups and 65 types that give a distinctive picture of the kinds of people who live in an area.

Acorn is a powerful targeting tool that combines geography with demographics and lifestyle information, and the places where people live with their underlying characteristics and behaviour, to create a tool for understanding the different types of people in different areas throughout the country. It provides a detailed understanding of the people who interact with your organisation and helps you learn about their relationship with you. This knowledge gives you the opportunity to target, acquire and develop profitable customer relationships and improve service delivery.

INTERPRETING THE REPORT

The Acorn Detailed Report helps you understand the underlying demographics and lifestyle attributes of your catchment by comparing them to the GB/UK average.

AREA PROFILE

Total figures exclude business addresses without residential population

INDEX

An index of under 100 shows below average representation.

An index of 100 shows that the proportion of customers is the same as the base.

An index of over 100 shows above average representation.

PERCENTAGE

% for Area: Calculates the percentages of each category, group or type for the catchment

% for Base: Calculates the percentages of each category, group or type for the base catchment

REPORT INFORMATION

Category, Group & Type: Use these tabs to look up the Profile breakdown of your catchment at the different levels of Acorn

Map: Use this tab to see an Acorn heatmap on your catchment and the surrounding area

What is Acorn: Use this tab to find out more detail about Acorn and what this report shows

11. Restaurants & Hotels	£15,364,596	£104.52	£103.11	101		
12. Miscellaneous goods and services	£20,243,266	£137.71	£135.92	101	I	
Total Expenditure	£122,714,305	£834.81	£852.33	98	1	

Expenditure calculated for RF Centres includes weighted residential, worker and tourist spend; for RF catchments it includes weighted residential spend only. For all other catchments it includes residential, online and domestic tourist spend (all spend originating from these areas).

The figures are calculated from data from the Living Costs and Family (LCF) survey conducted by the Office for National Statistics. The analyses in this report are carried out by CACI and those who carried out the original collection and analysis of the data bear no responsibility for their further analysis or interpretation. The spend figures are based on current prices for the year stated at the top of the report. The Classification of Individual Consumption by Purpose (COICOP) is published by the UN Statistics Division to provide an international standard for the reporting of expenditure. Totals are controlled to national figures supplied by ONS Consumer Trends.
